are "material" as defined under 37 C.F.R. § 1.56(b).

The listed references include an Official Communication mailed November 22, 2005 by the European Patent Office for EP patent application no. EP 98 909 121.0 (which is related to the above-identified patent application). The references (D1-D5) cited in the Official Communication are believed to have been either previously submitted by the Applicant or were cited by the Examiner during previous prosecution proceedings for this case. As such, these references are not being submitted herewith.

The listed references further include the Request for Reexamination filed February 15, 2005 for U.S. Patent No. 6,130,892. As previously indicated by the Applicant, the '892 patent is involved in reexamination and the above-identified patent application claims priority to the '892 patent. The listed references further include a copy of patent application 08/816,174 as filed on March 12, 1997 which was cited in the Request for Reexamination. The other references cited in the Request for Reexamination are believed to have been previously submitted. As such, these references are not being submitted herewith.

Consideration and entry into the record of the listed references is respectfully requested.

Respectfully submitted,

**JOEL B. SHORT et al.**
